TO BOYCOTT MONMOUTH.

BITTER FEELING AMONG NEW-JERSEY JOCKEY CLUBS.

BACING AT THE WESTCHESTER TRACK IN AUGUST-RICH STAKES OFFERED.

The New-Jersey Jockey Club, of which Michael F Dwyer is the leading spirit, has struck a snag at the outset of its career that may prove troublesome. This club wants to build a track near Elizabeth and do its racing before May 15 and after October 15 of each year, thereby avoiding a clash with the dates chosen by associations within the State of New-York, which are required by law to do all their racing between the dates mentioned. Now, before a lick is struck with pick or shovel, Assemblyman O'Neill inthe Legislature at Trenton a bill preribing June 15 to October 15 as the period during which racing may take place upon any track or grounds in the State of New-Jersey.

This looks like a direct blow at Mr. Dwyer's club;

and it is not unreasonable for the members thereof to conclude that somebody with something at stake is behind the O'Neill bill. Naturally the rivalry articipated if not real—that has already sprung up with Monmouth Park points to D. D. Withers as the man. The thought of Mr. Withers in such a position causes the bitterest feeling. Reprisals are threatened. It is said that Guttenburg and Clifton will unite with the new organization in boycotting Monmouth; that they will not only race on Monmouth days during July and August, but will do all in their power to prevent owners from entering horses in Monmouth

It has been said more than once by prominent turfmen that Mr. Withers repudiated the action of the leading clubs against half-mile tracks and \$400 purses simply because he wanted to propitiate Clifton and Guttenburg, from which reservoirs of dilapidated plugs Monmouth drew a considerable part of its ing material. Such a charge may seem absurd and idiotic, but it is made in good faith. And it is quite true that Mr. Withers did refuse to enter the

"combine" against the two New-Jersey circuses.

It is a preity mess. Think of Clifton, Guttenburg,
Elizabeth and Monmouth, racing at the same time in
the summer, with the New-York clubs looking on.
If it be true that Jersey Central stockholders are interested in "Mike" Dwyer's track we may witness a fight between the two great railroad corporations the State, the Pennsylvania, with A. J. Cassatt's influence behind it, taking sides with Monmouth. one can doubt what the issue of such a contest would

Monmouth Park, with its vast resources, laughs at the idea of a boycott, and says to its pigmy opponents "Come on." But there won't be a fight. Jockey clubs may be very silly about some things, but they are too wise to cut their own throats.

O'Neill's bill proposes a tax of 10 per cent on the gross receipts of all race tracks in the State. The measure is now in the hands of the Assembly Committee on Corporations

There seems to be a growing demand for straight cks, but it certainly does not come from the public. tracks, but it certainly does not come from the public. It isn't a straight track that the American people are clamoring for; it is straight racing, Give us less conservatism and more backbone in judges' stands. The New-York Jockey Chib has persuaded Mr. Withors to concede to it the last two weeks in August for a summer meeting at the new Westchester course. It was a foregone conclusion that this would be done. Mr. Withers and John A. Morris were close friends in New-Orleans and neither fancied a conflict with the other. The Westchester track is a mile and a quaster in length, with only one turn, and besides the horse-shoe iros a six-furiong straight course running diagnally to the grand stand, and visible from start to limish.

maily to the gain stakes are offered for the opening meeting. Including these, there will be at least six races each day, and no purse will be less than \$1,000. TO BUILD A NEW HEBREW SYNAGOGUE. A meas-meeting was held yesterday afternoon at Room 24. Cooper Union, of people of Wareaw, to take steps toward the organization of a congregation to be composed exclusively of Warsaw people, and to build a synagogue for that purpose. Ferdinand Levy presided and made the opening address. He said that there were in the city 2,000 or 3,000 Hebrews who came from the historic old city of Warsaw, and that, although there were many beautiful synagogues in the city at which they could worship, they nevertheless desired a house of their own. Addresses of the same general nature were made by the Rev. Dr. B. Hast, S. Harris, the Rev. Dr. Newmark, the Rev. D. Taubenhaus, Professor Charles J. Goldsmith, B. Saidel and the Rev. Dr. Veid. It is intended to build a synagogu which shall cost about 860,000. About \$2,500 had been which shall cost about a country and as a constraint subscribed yesterday. A BUSY SUNDAY FOR IVES AND STAYNER.

HARD AT WORK WITH THEIR LAWYERS IN PRE PARING THEIR DEFENCE-GUARDED

AT THE SINCLAIR HOUSE. The Sinclair House, at Eighth-st. and Broadway, was overrun yesterday with persons anxious to see Henry S. Ives and George H. Stayner, who occupied the comfortable room, No. 34, as prisoners. A number of deputy sheriffs guarded them. Young Ives held a veritable reception in his rooms all day, the number of visitors being in ne way limited by the officers of the law. The two "financiers" arose at an early hour. Ives seemed to be entirely at ease, but Stayner did not appear to be as well satisfied with the situation, and looked as if he were getting tired of being towed about by his associate into all sorts of unpleasant The older man sat quietly in a corner, and had little to say. The deputy sheriffs made them seives at home, and their case was not hampered by any danger of an attempt at escape on the part of

After a substantial breakfast, served to the party upstairs, the prisoners sat down at their table and began examining and arranging documents which they intended to submit to their lawyers later. At 10 o'clock the run of visitors began. Mr. Johnson, of the firm of Hoadly, Lauterbach & Johnson, Charles Ridgway, and a number of other lawyers were among the first to call and were followed by a corps of typewriters and stenogers and a notary public. The adjoining room, No. 33, was transformed into an office, and it soo became a busy place. Ives and Stayner were occupied in placing before Mr. Johnson the documents which are to be used in their defence, and Mr. Ridgway was dictating the draft of an answer to the complaint in the case. A number of Wall Street men, friends of the prisoners, called to offer their services in pro-

curing ball.

The prisoners' lawyers will make a motion before Justice O'Brien this morning to vacate the order made on January 22 on the complaint of Frank R. Lawrence, the motion being based substantially on the evidence brought out before by the defendants in the former suits. If this does not succeed an attempt will be made to convince the Judge that the amount will be made to convince the Judge that the amount suits. If this the made to convince the Judge that the amount made to convince the Judge that the amount set of the made to convince the Judge that the suits at the suits at

Luncheon and dinner were served upstairs at the usual hours. Deputy Sheriffs Martin, McConigle and Young alternated in taking rest during the day, but at a late hour at night the three officers began again their nights vigil together.

MODORE. Captain F. M. Ramsay, who has commanded the cruiser Boston ever since her long pennant was hoisted to the main truck to indicate that she was commission for sea duty, received instructions on Saturday from Washington that he would be letached on February 14 and put on waiting orders.

His being relieved was at his own request, and in view of the fact that upon the retirement of Rear-Admiral Luce, on March 25, he will be promoted to commodore. This rank will entitle him to the ommand of a naval station or of a fleet, rather than that of a single ship. Captain Ramsay will, it is believed, be ordered to duty at the Naval Obcryatory, and in the meantime he will make his home in West Washington where his family now

A STEADY DRIZZLE WITH LIGHT WINDS. NEW-YORK ENJOYS ANOTHER BAINY DAY-PAIR

WEATHER MAY BE EXPECTED TO-DAY. New-York was favored with another of those days yesterday which has become so common this winter that people have come to be reconciled to anything in the form of weather. The rain began to Lall shortly after 5 o'clock in the morning, with a slight wind blowing from the nertheast. It was more of a drizzle than a rain, at times almost a heavy mist, but the fall was steady and persevering. The overcoats and wraps, and chilled bones while. There were few people out of doors all day, and those who were forced to be about did not seem to do much grumbling. These periodical rains have become so common that men do not seem to

think it worth while to complain about them. The rain, fine as it was, made disagreeable puddles in the streets. There was, as usual on such days, an abundance of mud on all sides. It made sidewalks sticky and treacherous, and some of th streets were turned into abominable cel-ponds. Fifth-ave., more than any other thoroughfare perhaps, seemed peculiarly dreary and desorted. Now and then a pair of horses, driven by a man hidden in a shining coat, dashed along, eager to be safely housed, the horses' feet and the carriage wheels dashing mud generously on all sides. The lum-

dashing mud generously on all sides. The lumbering stages, however, were missed from this thoroughfare, and this made it seem the more desorted and melancholy. It was the first day on which the Fifth Avenue Company's new policy of running no stages on Sunday was put fote plactice. It was a good opportunity to test the disposition of the public, for they naturally would be in demand on a slushy, rainy day.

The Signal Service observer told a reporter last night that the indications were that to-day the wind would shift back toward the west, bringing some time before night colder and fairer weather. There, had been no high winds at any time during the day. The storm had originated in the Southwest, and the centre was slowly moving away from New-York.

NEW OFFICERS FOR THE LEGION OF HONOR. Commercial Council, No. 305, of the American Legion of Honor installed its newly elected officers on Friday evening at the society's rooms, No. 42 Union Square. Bren ner; treasurer, John Simpson; orator, David Phillips; guide, Thomas F. Fleming; chaplain, William Farmer; warden, W. Owens; sentry, S. Brown; trustees, Messrs, Ingles, Topping and Buchanan.

The installation ceremonies were conducted by District Deputy Grand Commander Crook, in a graceful and impressive manner. After the regular busi-ness of the evening had been transacted a supper was served, followed by speeches, recitations and songs. A gold badge with diamond ornaments was presented to Paet Commander Dalglish, who accepted the gift in a speech abounding in witty allusions. Delegations from Ironsides, Mutual and other councils were present, and the evening was an effectaining and enjoyable one.

NEWS FROM THE SUBURBS.

TALK ABOUT A NEW CITY CHARTER. It is currently rumored that Senator William D. Edwards has a new charter for Jersey City, and will probably present it to the Legislature to-night The Senator declines to say anything about it, it is known that a bill has been prepared which, if becomes a law, will make radical changes in the government of Jersey City and Newark. Under the limitations of the Constitution any law passed for either city must affect the other. The new charter abolishes the Boards of Finance and Public Works and provides for the reorganization of th Police and Fire Boards. A Board of Street, Sewe and Water Commissioners, to consist of three members, appointed by the Mayor, is substituted for the Board of Works. The Boards of Police and Fire Commissioners are reduced from six to three members each, to be appointed by the Mayor, instead of being elected, as at present. The bill creates

of being elected, as at present. The bill creates a Board of Tax Commissioners and a Board of Excise Commissioners, to consist of three members each, appointed by the Mayor.

The Mayor also receives power to appoint a Tax Collector, a Controller, a Treasurer, a Counsel and an Attorney. These officers are now appointed by the Board of Finance. Some of the duties at present discharged by the Board of Finance, such as fixing the tax levy and issuing and redeeming bonds, will be discharged by a board to be composed of the Collector, Controller, Treasurer, President of the Street Commission. Each board will be independent of the others. Whether such an act can be passed is a matter of conjecture, as it must meet the approval of the Newark members of the Legislature as well as those from Jersey City.

BAPTISMS IN MIDWINTER.

The trouble in the Eisey Memorial Church, Jersey city, has resulted in the formation of a new organiza tion of faith-cure believers. The seceders and friends of the former pastor, Mr. Baylis, met yesterday afternoon in the Republican wigwam, at Bergen and Fair mount aves., and Mr. Baylis conducted the services He made no allusion to the trouble, but some of his nore ardent supporters vigorously denounced Mr. Elecy for his treatment of Mr. Baylis, and for the summary manier in which he had brought Friday night's meeting to a close by having the gas exnight's meeting to a close by having the gas extinguished. By special request Mr. Baylis, at the
evening service, preached the sermon which caused
the trouble because Mr. Elsey thought it was almed
at him. Resolutions were adopted requesting Mr.
Baylis to remain and organize a church, piedging him
the support of those present.

Services were held as usual in the Elsey Chapel,
the Rev. Mr. Kenny officiating. Nothing was said
about the touble. Two ardent converts, Mr. and
Mrs. Charles Freis, were baptized in the bay yesterday
afternoon, opposite the Mount Zion Chapel.

JERSEY CITY.

The Grand Street Reformed Church, which was abandoned some years ago, has been thoroughly renovated under the auspices of the Home Mistonary Society, and was yesterday taken possession of by the congregation of the Free Reformed Church, which formerly worshipped in a small frame building in First.st. The occasion was made one of jubilea and thanksgiving. Services were conducted by the pastor, the Rev. A. A. Zabriskie, assisted by the Rev. Drs. Charles Imbrie, Cornelius Brett, P. D. Van Cleef and Josiah Strong.

A body, supposed to be that of Conrad Gimminger, was found yesterday in the ruins of the abbattoir fire. The body was burned to a crisp, there being nothing left of it but the trunk. It is supposed to be Gimninger because he is missing, and he was seen on the roof of the burning building a short time before it fell in. A large force of workmen will begin to clear away the debris at once, and a new building will be erected. So far as could be ascertained yesterday the loss will not vary much from the figure given vesterday, \$100,000.

George DeCamp, of No. 113 Emmet-st., entered Police Headquarters on Saturday night and said that while sitting in his front room reading a ball came crashing through the window. It passed him, grazed the head of his daughter, and buried itself in the wall. He produced the ball, a large one, evidently fired from a rifle. This has been the fourth time that he has been fired at in a similar manner by an unknown assailant.
